## GRADUATE MASTERS DEGREE

### Rockhurst University-Helzberg School of Management-Kansas City, MO

***Masters of Business Administration in Physician Health Care Leadership*** through the first and only of its kind program designed for family medicine residents and faculty (June 2004-May 2007)

I was part of the Rockhurst implementation and planning team to plan and integrate this program into our 3 year residency program. This program is supported and cosponsored by the American Academy of Family Physicians. I was able to get the first and only dual certification of a residency program in the nation certified by the RRC and the ABFM. Now graduated, I have had four of my residents to also graduate from the dual program.

**MBA Portfolio Projects:**

<http://umkcfm.org/physician-mba.html>  
Cooper Green Hospital and the Community Care Plan: *Health Strategy case presentation in Health Care Strategy (March 17, 2007)*  
Nurse Practitioner Licensure and Prescription Authority: *Research Paper, Policy and Politics paper for the proposed legislation and pressure in the state of Missouri to give nurse practitioners wider prescriptive authority and a review of their proposed licensure without physician oversight bills. (Policy and Politics of Healthcare, Dec 2006)*  
HPV Vaccination and Cost Effective Analysis: *Research paper, PowerPoint, and analysis of the cost effectiveness of the new HPV vaccination Gardasil. This economic analysis sparked another of my cohort classmates to complete the task of creating a Grant through the Greater Kansas City Health Foundation to cover women that do not have coverage for the vaccination which has become a model for the rest of the Country. (Fall 2006)*  
Competency Based Education: *A proprietary outline and implementation of a 5-way complete core competency based curriculum grid with evaluation system based on the ACGME core competency project in a novel method for displaying current methods and needs analysis to improve medical education. (Fall 2006)*  
International Medical Graduates and the Future of the United States Physician Supply Chain: *International Business Paper on Supply Chain Economics discussing the advantages and disadvantages of our present system of importing physicians from foreign countries. (April, 2006)*  
Improving Quality In Patient Documentation: *A Research paper and implementation plan for improvement in the quality of Template based SOAP notes in an EMR record. This was later placed into a poster presentation and presented at the national program Directors Annual meeting. (Summer 2006)*  
German Healthcare System: *Thorough investigation, summation research paper and power-point presentation of the oldest healthcare system in the world. (Winter 2005)*  
Off-shoring Healthcare Services: *Research paper on medical services amenable to and not to placing in foreign countries. (Summer 2005)*  
Lakewood Healthcare Marketing Project: *Consumer Driven Healthcare Office Plan-Thorough marketing and implementation plan for rollout in the new healthcare environment. (Spring 2005)*  
Financial Pressures Spur Physician Entrepreneurialism: *Physicians continue to have declining income over the last 7 years. Practice cost containment may have deleterious effects as practice forego low reimbursed procedures (although patient needed for higher*

*reimbursed procedures in large populations. (November 17, 2004)*

**Awards:** Rockhurst University Helzberg School of Management "Outstanding Service Award" Physicians MBA class of 2007 (Awarded May 2007)

3-4/95 **Orthopaedic and High Alpine Medicine** - Keystone, Colorado 1995

*This was during residency as I was one of a few selected residents to be able to do a 6 week rotation at the base area of Keystone Mountain during ski season. I learned extensive sports medicine skills examining hundreds of knees and shoulders. I was also able to relocate over 70 dislocated shoulders during this time and perfected the Hennepin Technique. This extremely high acuity experience could be repeated relatively few places in the US as the clinic took care of every injury from Keystone and A Basin ski resorts*

1-2/94 **Rural and Tropical Medicine** - Hana, Maui, Hawaii

*My experience in rural medicine was in a remote area of Maui. It was a great learning experience in a solo practicing office taking care of mostly native Hawaiian patients along with a select group of Hollywood stars and their families that make their homes there.*
